**Subject:** February 27 Discussion with Bill and Natacha Sesko

Chris,

Jeanni and I met with Paul McConkey and his property manager at 10:00 A.M. today. He is extremely concerned about bringing his property into compliance with the abatement order issued by the City and has served Bill with an eviction order that will be effective in 20 days. The lease to Sesko will terminate on April 1. Bill has already told McConkey that you have made some commitments on the part of the city that he may interpret in ways that may delay abatement of his code violations. Mr. McConkey suggested that based upon his experience with Bill S. it would be helpful if you could summarize your conversation with him so he does not try to interpret your meeting in ways that you did not intend. Having known and dealt with Bill for many years, I concur with Mr. McConkey's suggestion.

Could you please summarize your conversation and any commitments that you may have made? Thanks,  
Jim S.
